Executive Summary – FNP Sales Analysis

This project presents an interactive sales dashboard designed to analyze Ferns N Petals (FNP) business performance across key dimensions such as revenue, orders, occasions, product categories, cities, and delivery timelines. The dashboard enables stakeholders to monitor trends, identify top-performing areas, and make data-driven decisions to improve sales and operational efficiency.

Overall Performance

- Total Orders: 1,000
- Total Revenue: ₹23,52,098
- Average Customer Spend: ₹3,520.98
- Average Order-to-Delivery Time: 5.53 days

These metrics reflect strong overall performance, with a healthy average order value and efficient delivery operations that support positive customer experience.

Revenue and Sales Insights

Occasion Performance:

- Anniversary and Raksha Bandhan generate the highest revenue, showing strong seasonal demand.
- Other occasions such as Birthday and Diwali contribute steady sales, highlighting consistent gifting behavior.

Category Performance:

- Soft Toys, Sweets, and Cakes are the top revenue-generating categories.
- Lower-performing categories such as Plants and Mugs present opportunities for promotional improvement.

Time and Geographic Trends

Time-Based Trends:

- Sales peak during specific months aligned with major gifting occasions.
- Afternoon and evening hours show higher order activity, indicating peak customer engagement periods.

City Performance:

- Cities such as Imphal, Dhanbad, and Kavali lead in order volume.
- Sales distribution across multiple cities indicates a diverse and stable customer base.

Key Business Impact

- Helps identify top-performing products, occasions, and locations.
- Supports better inventory planning and targeted marketing strategies.
- Provides insights to improve delivery efficiency and customer satisfaction.
- Enables data-driven decision-making to enhance overall business performance.

Conclusion

The FNP Sales Analysis Dashboard effectively transforms raw sales data into meaningful insights. It provides a clear view of business performance and supports strategic planning to improve revenue growth, operational efficiency, and customer experience.
